

Important safety and care instructions. Keep for future reference.

Your Everyday Phone from BT is manufactured to comply with European safety standards. Please read the following instructions carefully before installing and using it.

Important

You won't be able to call emergency services from this phone if there's a power cut, so make sure you've got another way to call for help in an emergency.

This product is intended for connection to analogue public switched telephone networks and private switchboards in the UK and Republic of Ireland.

Installation and location

- For indoor use only in UK and Ireland.
- Position all parts, including power adapters away from heat and sun (e.g. away from radiators, window sill or other electrical equipment which can get hot).
- Keep area ventilated (e.g. don't put in cupboards or back of sofas) and don't block any vents with objects or thick carpets.
- Keep device and cables out of young children's reach.
- Only use power adapters and rechargeable batteries provided by BT for this specific device; contact our helpdesk if you need a replacement.
- Electronic devices hate liquids; don't place devices and power adapters in damp areas or near sources of water or splashes.
- Product may cause scratches or marks if placed on fragile surfaces (e.g. veneered wood or delicate fabrics); place on a mat if required.
- Don't use near flammable substances or in a flammable atmosphere (e.g. warehouse or garage)
- Designed for use at room temperatures between 0 and 40°C.

Care and maintenance

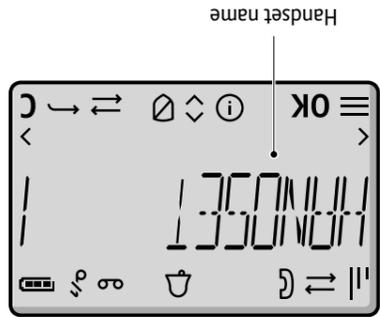

- Treat all parts with care; no shock or vibration, and don't pull or twist any cables.
- Regularly check your product for damage to ensure small parts aren't exposed.
- Dust with a soft dry cloth; don't use water or solvent.
- Regularly check that objects don't cover any parts or any vents that could cause overheating.
- When not in use, store in a dry place and away from extreme heat or cold.

Warnings

- If any parts of your product, power adapters or any cables appear damaged, discontinue use immediately. Switch off your electrical socket if it is safe to do so and contact our helpdesk. See terms in the Guarantee section.
- Don't try to open your device or power adapters. There are no serviceable parts and you risk an electrical shock.
- There is a slight chance your phone could be damaged by an electrical storm. We recommend that you unplug the power and phone line cord during an electrical storm.
- If you've got a pacemaker please check with your doctor before installation.
- Radio signals from this product may cause interference to hearing aids.

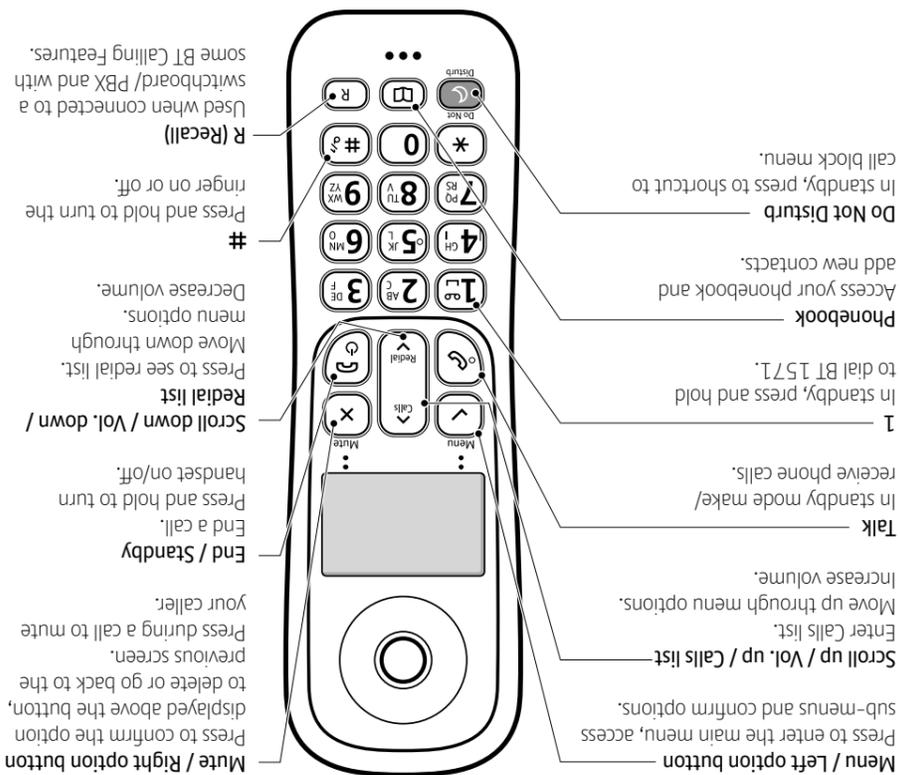

Battery safety information

- Only use batteries of same size and type as advised in the set-up section of this guide.
- Take care when disposing of your product. The battery could explode if placed in a fire, a hot oven or is crushed or cut.
- Don't subject the product to extremely low air pressure as the battery may explode or leak flammable liquid or gas.

- Shows you how much charge is left on the handset.
- Will appear if you're on, or starting, a call. Shows when a new missed call has been received.
- Shows when you've set an alarm clock. Lets you know the handset ringer is off.
- Lets you know the signal range from your new phone's base. Shows you when Call Blocking is activated.

Handset display

Handset buttons

- Mute / Right option button** — Press to enter the main menu, access sub-menus and confirm options.
- Menu / Left option button** — Press to enter the main menu, access sub-menus and confirm options.

Check the box contents

Handset

- Extra handset
- Charger
- Mains power adaptor (item code 066771)
- Two rechargeable batteries, AAA NiMH 500mAh (already installed in the handset)

Base

Important – please read first

- Only use the line cord, power supply and rechargeable batteries that come with your phone
- Make sure the power supply is connected to a socket that you know works
- Connect your phone to the power supply and let the batteries charge for 16 hours before connecting your phone to the phone socket
- The base should always be plugged in to the mains power supply

Phone line (this comes already installed)

Mains power adaptor (item code 066771)

Two rechargeable batteries, AAA NiMH 500mAh (already installed in the handset)

- If you bought more than one handset

Set-up

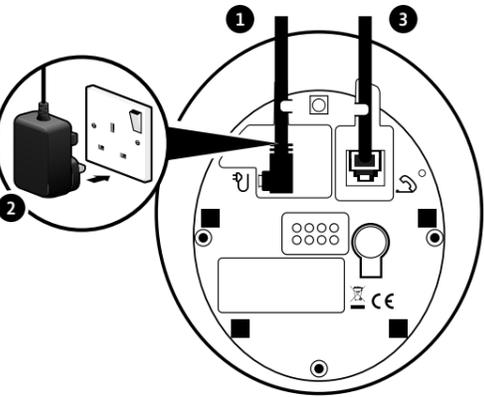

1. Plug in

1. Plug the mains power adaptor into the base, with the cable clipped in the groove provided. Please use power supply unit item code 066771.
2. Plug the other end of the power adaptor into the wall power socket and switch on.
3. Plug the phone line cord in to the base, but don't plug the other end into the phone wall socket.

Important

- Don't connect the phone line to a phone socket until the handset is fully charged
- The base station should be plugged into the power socket all the time

Add, view, edit or delete a number in your blacklist

1. Press **Menu**, scroll **Redial** to CALL BLOCKER, and press **Menu**.
2. Scroll **Redial** to BLACK LIST, press **Menu**.
3. Scroll **Call** or **Redial** to number you want to view, edit or delete in your blacklist. Or go to step 4 to add a number to your blacklist.
4. Whilst in BLACK LIST menu, press **Menu** EMPTY is shown, press **Menu** again then scroll **Call** or **Redial** to ADD, VIEW, EDIT, DELETE or DELETE ALL and press **Menu**.
5. Follow the on-screen instructions.

Block incoming call number in your Calls list†

1. Press **Call**, scroll to the entry and press **Menu**. DETAILS is displayed.
2. Scroll to ADD TO BLIST (blacklist) and press **Menu**.
3. Enter name using keypad, press **Menu**. The number is displayed, press **Menu** to save. You will hear a confirmation tone.

Block incoming call by call type

1. Press **Menu**, scroll **Redial** to CALL BLOCKER, and press **Menu**.
2. Scroll to SETTINGS, press **Menu**.
3. Scroll to CALL TYPE, press **Menu**.
4. Scroll to the call type you want to block – WITHHELD, INTERNAT'L, UNAVAILABLE or PAYPHONE – and press **Menu**. You'll hear a confirmation tone.

Where to put your phone

- Place the base within 2 metres of a mains power socket and 1.8 metres of a phone socket so the cables will reach
- Make sure it's at least a metre away from other electrical appliances to avoid interference
- Don't place the phone or base in a bathroom or other humid area
- The product works by sending radio signals between the handset and base. The strength of the signal depends on where you position the base. Putting it as high as possible can help give you the best signal

Note

The same phone number can't be saved in the blacklist and phonebook.

Do not disturb

To silence all calls.

1. Press **Call**, BLOCK MODE is displayed, Press **Menu**.
2. Scroll **Redial** to BLOCK ALL, press **Menu** ALWAYS ON is displayed.
3. Press **Menu** and you will hear a confirmation tone.

All incoming calls will be silenced and added to the calls list, you can then choose to add the number to the BLACK LIST.

Turn do not disturb off

1. Press **Call**, BLOCK MODE is displayed.
2. Scroll **Call** to OFF, press **Menu** and you will hear a confirmation tone.

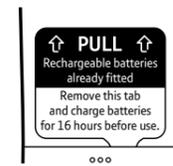

Phonebook

Store entry in phonebook (up to 50)

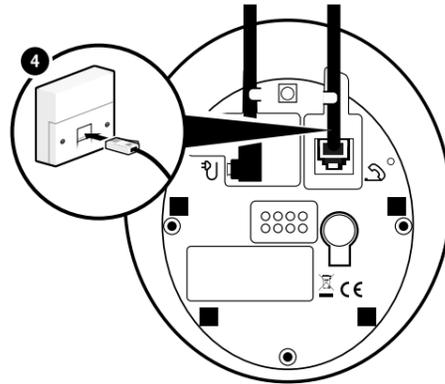

1. In idle mode, press **Call**. EMPTY is displayed if there are no numbers.
2. Press **Menu** to select ADD. Enter name using keypad and press **Menu**.
3. Enter phone number and press **Menu** to save.
4. Press **Redial** to select ring melody, then **Menu** to save.

2. Charge

1. Activate the batteries by pulling the plastic tab away from the handset.

2. The handset will then check for a link with the base station. When it's found it.
3. Place the handset on the base and let it charge for 16 hours.
4. After 16 hours, plug the phone line cord into the phone wall socket.

To save a number to your phonebook from the Calls list, press **Call**. Scroll to the entry you want to save and press **Menu**. Scroll to ADD TO PB (phonebook) and press **Menu**.

Enter name using keypad and press **Menu**. The number is displayed, press **Menu** to save. Then follow step 4 above.

If you have more than one handset registered to the base, your contacts are automatically updated to all handsets (up to 6 handsets).

Dial entry in phonebook

1. In idle mode, press **Call**.
2. Scroll **Call** or **Redial** to display the entry and press green **Call** to dial.

Using the menu

1. Press **Menu** to open the main menu, scroll through menu items using **Call** or **Redial**.
2. When the menu you want is displayed, press **Menu**.
3. Press **Call** or **Redial** to scroll through the sub-menus and press **Menu** to select.
4. Use **Mute** to select options displayed above the button, on the display.
5. Use **Mute** to exit a menu or go back. If no buttons are pressed for 30 seconds the handset will return to the idle screen.

Talk/Standby time

Under ideal conditions, the handset batteries should give up to 12 hours talk time or 120 hours standby on a single charge. (This doesn't mean you can unplug the base or leave the handset for this length of time without charge). Please note that new Ni-MH rechargeable batteries don't reach full capacity until they've been in normal use for several days.

Battery low warning

You will hear a warning beep every 2 minutes during a call and the **Call** icon will flash. You must recharge the handset batteries before you can use the handset. If the charge completely runs out the handset will switch off. Place the handset on the base or charger to charge.

Set up for additional handsets (multipacks only)

1. Plug the mains power adaptor into the underside of the charger and plug the other end into the mains wall socket and switch on the power. Please use power supply unit item code 066771.
2. Activate the batteries as explained in point 1 in Charge above.
3. Place the handset on the charger to charge for 16 hours.

Handset volume and sounds

Incoming speech volume

During a call, press **Call** or **Redial** to increase or decrease the volume of your caller's voice.

Handset ringer volume

1. Press **Menu**, scroll **Redial** to HS SETTINGS, press **Menu**.
2. Scroll **Redial** to RING SETUP, press **Menu**.
3. Scroll **Redial** to RING VOLUME, press **Menu**.
4. Press **Call** or **Redial** to adjust the volume, press **Menu** to save.

Turn ringer off

Press and hold **#** to turn ringer off and on.

Handset ringtone (for external or internal calls)

1. Press **Menu**, scroll **Redial** to HS SETTINGS, press **Menu**.
2. Scroll **Redial** to RING SETUP, press **Menu**. EXT. RING is displayed, press **Menu** or press **Redial** to display INT. RING TONE then press **Menu**.
3. Press **Call** or **Redial** to hear ringtones, press **Menu** to save.

Using the keypad

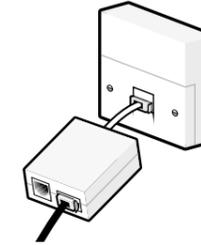

- When entering letters you may need to press the same button a few times until the letter you want is displayed, e.g. press **2**^x once for A, twice for B, three times for C
- To enter a space, press **1**⁰⁰

3. Go!

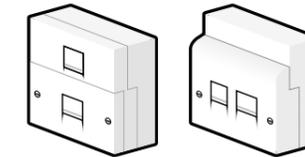

Using your Everyday Phone on a line with broadband?

To avoid problems with your broadband or noise on your phone line, you might need to plug your telephone line cord into the wall via a microfilter (not supplied).

If your main phone socket has a single socket, as shown, you'll need to use microfilters.

You don't need to use microfilters if your main phone socket has two separate sockets, like either of these:

Using the phone

Make and end a call

1. Press **Call**, enter phone number using keypad.
2. Press **Call** to end the call.

Answer a call

1. Lift handset from base or charger.
2. If the handset is not on the base or charger, you'll need to press **Call**.

Mute

1. Press **Mute** during a call.
2. Press **Mute** to return to your caller.

View or dial a number in Calls list†

The Calls list stores details of the last 20 incoming calls.

1. Press **Call** to open the calls list and scroll to an entry.
2. Press **Call** to dial the number or to view details of the call, press **Menu**. DETAILS is displayed. Press **Menu**.

Free Technical Help & Support

A full list of frequently asked questions and the complete user guide are available online. bt.com/producthelp

Phone doesn't work

- Have you activated the batteries correctly?
- Check that the mains power is correctly connected

No dial tone or line cord error message displayed on screen

- Is the telephone cord plugged into the base and phone wall socket?
- Check that the mains power is correctly connected
- Only use the telephone cord supplied with the phone

Can't make or receive calls

- Check that the mains power is correctly connected
- The batteries may need recharging
- Has there been a power cut? If so, place the handset back on the base for ten seconds and try again. If it still doesn't work, disconnect the batteries and mains power for ten minutes, then reconnect and try again

Handset doesn't ring

- The ringer volume may be switched off
- Check that the mains power is correctly connected

No display

- The batteries may be flat, dead or incorrectly inserted
- Recharge or replace the batteries
